

K-Love serves our community by bring christian values into the home and the car.

There are many residents in our area that live way out in the country and up in the mountains they would no longer be able to tune into K-LOVE.

K-LOVE has many many valuable talk shows and music that promotes christian values.

It is also a way other going to church for people to get the same message. Not all people are able to attend church each Sunday and this could be there only means of christian fellowship.
